

Dräger X-plore 5500 Full Face Mask

Whether in the chemical, metal, or automotive industries, ship building, supplies, or disposal: The Dräger X-plore 5500 full face mask is the right solution for environments where not only increased respiratory protection is required, but also eye protection and a clear vision is mandatory.

Dräger X-plore 5500

Comfortable and secure fit

Double sealing frame with threefold sealing edges.
More secure protection and tight fit.

Large visor (180° angle)

Optimal view during work.
Made from Polycarbonate or Triplex.

Safe bayonet-type connector

Simple attachment of the filters: Both filters are attached from above and rotated down to the anchor point. Cannot be fitted incorrectly.

5-point head harness

Simple donning and doffing without trapping any hair.

Compact „low profile“ design

Side positioning of filters and flat construction.
Unrestricted field of vision.

Benefits

Twin-filter full face mask

- Dräger specific bayonet connection – lateral position of the filters
- EPDM mask body, visor made of PC (or optionally Triplex)
- to be used in combination with X-plore Bayonet filters

Safe and comfortable fit

A double sealing frame with threefold sealing edges offers safe protection and a secure fit for almost all face shapes. The mask body from durable EPDM ensures a great level of wearing comfort even during prolonged use.

Large field of view due to 180° lens from PC or Triplex

The distortion-free lens with 180° wide angle ensures a large field of view with excellent peripheral vision. There is a choice of impact-proof Polycarbonate material (with plastic frame) or scratch-proof and chemical-resistant Triplex glass (with extra stable stainless steel frame).

Efficient ventilation system

The efficient ventilation system with separate nose cup ensures a fog-free lens and unobstructed view.

Versatile use

The X-plore 5500 is equipped with two lateral bayonet connections for use of the comprehensive X-plore Bayonet filter series.

5-point head harness

The head harness allows quick and easy donning and doffing of the mask without hair entanglement. Additionally, the wide strap design prevents the development of pressure points on the head.

Easy recording, servicing and management

One universal size simplifies logistics and storage. An inside attached barcode label allows for ease of recording and servicing the mask inventory.

Unrestricted field of vision

The swept-back position of the filters guarantees the user's field of vision is free from obstruction.

Details

Comfortable 5-point head harness

180° visor for a wide field of vision

Easy bayonet connection

Exhalation valve

System Components

Dräger X-plore Bayonet

The innovative Dräger X-plore Bayonet filter series is designed for a wide range of applications. It combines modern design with low breathing resistance. Because the bayonet filter is positioned on the side of the mask, the wearer has a wide, uninterrupted field of vision.

Accessories

D-7582-2011

Wikov V mask box

Instead of a mask bag, the Dräger full face masks can be stored or carried along in the Wikov V mask box.

ST-567-2002

Mabox II mask box

Instead of a mask bag, the Dräger full face masks can be stored or carried along in the Mabox II (small) mask box.

D-9356-2014

Spectacles kit

For people who wear glasses, the Dräger full face masks can easily be equipped with a spectacles kit.

D-44729-2015

DAISYquick cleaning cloths

Cleaning cloths to remove dirt easily.

Accessories

D-5990-2018

"klar-pilot" gel

Anti-fogging agent which can additionally be applied to reduce possible fogging on the insider of the visor.

ST-14935-2008

Welding Protection Panorama Nova / X-plore

The Dräger Welding Protection provides the optimal solution for safe welding work when used in combination with a full face mask and suitable filters. Without the adapter, the shield is suitable for welding protective filters with a 4.5" x 5.25" format.

ST-14936-2008

Adapter Welding Protection for Full-Face Masks

The adapter for Dräger Welding Protection allows the use of established welding protective filters (110mm x 90mm)

Technical Data

Mask body	EPDM with high ageing resistance, hypoallergenic
Visor	Polycarbonate or Triplex
Filter connection	Two side-positioned bayonet connections for use of the Dräger X-plore Bayonet filter range
Weight	Approx. 540 g
Approvals	EN136 Cl.2 with CE mark and NIOSH
Maintenance	Spare parts available
